FOR IMMEDIATE RELEASE

NEW RAMP METERS ALONG INTERSTATE 10 (I-10) BETWEEN BLOOMINGTON AND COLTON

SAN BERNARDINO COUNTY – The California Department of Transportation (Caltrans), District 8, will be turning on ten new ramp meters at various locations between the City of Bloomington and Colton along Interstate (I-10). Ramp meters assist in the control of traffic flow on the mainline of the freeway and are activated when detecting heavier traffic volumes. The meters are currently set on “solid green” and will remain in this configuration for two consecutive weeks.

Beginning Tuesday, September 2, the ramp meters will be set to normal operation allowing a controlled amount of vehicles per green light. They will be placed at the following on ramps:

- Cedar Ave., City of Bloomington, East and Westbound.
- Pepper Ave., City of Colton, East and Westbound.
- Rancho Ave., City of Colton, East and Westbound.
- La Cadena Dr., City of Colton, Westbound only.
- 9th Street, City of Colton, Eastbound only.
- Mt. Vernon Ave., City of Colton, East and Westbound.
